

NONPROFIT RESOURCES

Resources for Nonprofit Leaders

Strong, healthy nonprofits are essential to every area of work the Foundation supports. In addition to helping individual organizations build their capacity, we take a networked approach by investing in intermediary organizations, strengthening connectivity and supporting collaboration across the nonprofit sector.

This page brings together Foundation partners and timely resources that may help nonprofit leaders navigate challenges, strengthen their organizations and advance their missions. We will update it periodically as new needs and resources emerge.

Find Nonprofit Support in Your Region

WESTERN NEW YORK
